Our history

TSL is a private company established in 2006. From the beginning of 2007, the basic scope of our activity is the provision of transport services in the field of hazardous materials, mainly liquid gases (propane, butane, LPG).

Currently, the company deals with domestic and international transport of propane-butane gas, liquid fuels, liquid chemicals in containers, liquid foodstuffs and technical gases in tanks and pressure tanks.

2.5 million

kilometers per month

4,500 tons

goods transported every day

We have certificates

- ISO 9001:2015
- GMP + B4
- SQAS
- Certificate of Professional Competence
- We are a member of the Association of International Road Carriers in Warsaw

Transport of LPG, Propane, Butane

FOR TRANSPORT

of propane-butane gas, we mainly use Polish production tanks, BC LDS, which are equipped with modern unloading systems.

ALL TANKS

are equipped with mass flow meters measuring mass, density and temperature, which allows for a reliable indication of the volume of the dispensed product.

WE DELIVER FUEL

on:

- concern stations
- private stations
- market stations

WE ALSO OFFER

transport of **bio**fuels and **bio**components
